Detailed Action

1. Claims 1-39 are presented for examination.
2. A telephone call was made to Bradley D. Lytle on 4/6/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1. 143).

Election/Restriction

4. Restriction to one of the following inventions is required under 35 U.S.C. 12 1:
 - I. Claims 1-35, drawn to the updating and accessing database information by participants, classified in class 707, subclass 204.
 - II. Claims 36-39, drawn to attempt to solve the problems presented by trouble tickets by the network administrator, classified in class 714, subclass 48.
5. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as in a system lacking the problem solving aspect from a network administrator, particulars, See MPEP § 806.05(d). Also the restriction requirement is based on the interpretation that every dependent claim is dependent on the preceding independent claim (note Applicant's claim numbering).
6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2154

7. Because these inventions - are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended, in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
